

Enterprise Development Grant (EDG)

企业发展计划

What is it?

Enterprise Development Grant (EDG) was introduced in 2018, as a result of the merger of the previous Capability Development Grant (CDG) and the Global Company Partnership (GCP) Grant. It aims to help Singapore enterprises grow and transform by supporting projects that strengthen their business capabilities, operational efficiencies and access to the international market.

EDG supports projects under three pillars:

- a) Core capabilities – help Singapore enterprises prepare for growth and transformation by strengthening business foundations;
- b) Innovation and productivity – support Singapore enterprises for new areas of growth or greater efficiency, such as reviewing and redesigning workflow and processes;
- c) Market access – assist Singapore enterprises that are willing and ready to venture overseas, such as for pilot test-bedding projects.

What is being enhanced?

The enhanced EDG support level of up to 80% will be further extended by six months.¹

When will it be implemented?

The enhanced support level will be extended from 30 September 2021 to 31 March 2022. The support level will revert to up to 70% thereafter.

-END-
