

Security Industry Transformation Map (ITM)

Innovative Companies | Better Jobs | A Secure Singapore

OVERVIEW OF THE SECURITY INDUSTRY

INDUSTRY FIGURES

47,000

Active Security Officers
Deployed at industrial, commercial,
residential & government premises

240

Security
Agencies

600

Security Service
Providers

INDUSTRY CHALLENGES

Heightened terrorism threats

Shrinking local workforce &
rising manpower costs

More educated workforce with
higher aspirations

OPPORTUNITIES

Potential new demand for security
services & push for buyers to
explore smarter security solutions

Paradigm shift to use technology
& redesign processes to optimise
resources

Better-skilled manpower to enable
new technology & services

ABOUT THE SECURITY INDUSTRY TRANSFORMATION MAP (ITM)

The Security ITM is a tripartite effort to develop a vibrant, technologically advanced & competitive security industry that delivers better security outcomes for Singapore & provides good jobs for Singaporeans.

To achieve this, four key strategies are in place to enable security companies to move away from a headcount-based model & deliver integrated security solutions.

Integrated Security Solutions:

Combine skilled
manpower, technology,
design & processes

Implemented through
outcome-based
contracts

STRATEGIES

INITIATIVES

TECHNOLOGY & INNOVATION:

Push for
technology &
innovation to
transform
operating models

- Security Industry Digital Plan to provide step-by-step advice to Security small & medium-sized enterprises (SMEs) on digital tech solutions to use at each stage of their growth
- Support for industry-led pilot projects with potential to uplift the industry
- Call for Innovative Solutions for co-development of innovative solutions between buyers, security agencies & tech companies
- Funding support for job redesign & technology adoption through Security Productivity Initiative

BEST SOURCING:

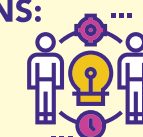

Promote best
practices in
procurement of
security services,
with Government
taking the lead

- Tripartite guide on best practices in procuring security services
- Skills training on best-sourcing for procurement officers & service providers
- Buyer outreach efforts by industry
- Government to adopt outcome-based contracts
- Funding support for buyers – Smart Sourcing Initiative & Security Productivity Initiative

REGULATIONS:

Align regulatory
criteria with ITM
objectives to
raise standards

- Revamped assessment criteria for Security Agencies Grading Exercise to better differentiate agencies that invest in training & technology, & deliver high quality services

SKILLS:

Invest in skills to
support career
advancement

- Skills Framework to support career development & training
- Enhanced skills training to train officers in relevant & emerging skills – SkillsFuture Series, Work-Learn Technical Diploma in Security Systems Engineering, SkillsFuture Study Awards
- Introduction of Specialist Diploma in Security Consultancy

JOINTLY DEVELOPED BY:

The goals, strategies & initiatives of the Security ITM have been developed in consultation with security industry stakeholders & the union to address the main challenges faced by the industry. These plans go beyond addressing manpower needs to address root issues by strengthening organisations & optimising resources.
