

WHOLESALE TRADE ITM 2025

Supporting Trade 2030: Anchor Singapore as a global trade hub, deepen and widen Singapore's trade flows, and groom globally competitive traders and export-ready enterprises.

A Capture growth opportunities in new markets and sustainability

- Grow local exports through e-commerce partners
- Partner global traders to enter new markets
- Enhance export competitiveness through international agreements such as Free Trade Agreements
- Promote trade in emerging sectors and sustainable products, and grow Singapore as carbon trading hub

B Anchor innovation activities by global traders

- Strengthen enterprises' product and process innovation capabilities
- Create new opportunities for innovation partnerships between global traders and Singapore enterprises

C Grow globally competitive Singapore traders

- Groom high potential trading enterprises into Singapore Global Traders
- Enhance productivity through partnerships with trade associations and SME Centres

D Create new and exciting roles for Singaporeans

- Develop Singaporeans for specialised roles such as data analytics and carbon footprint management
- Attract and groom young talent through scholarships and training programmes
