

For businesses receiving deliveries

Obtain vehicle plate numbers and contact details of delivery personnel to facilitate contact tracing.

Observe safe distancing at all times. If interaction is absolutely necessary, keep it short and to a minimum. Avoid physical contact.

Improve the ventilation of the delivery loading and unloading area, and minimise the number of people in this area.

Designate toilets for delivery personnel to use, located away from other staff amenities.

Please visit www.moh.gov.sg for updates on the COVID-19 situation.
